DISPLAY DEVICES UNVEILS NEW CORPORATE WEBSITE FOCUSING ON ENHANCED USABILITY AND EXPANDED PRODUCT INFORMATION

April 8, Arvada, CO

Display Devices announces the release of a newly-redesigned corporate website (www.displaydevices.com). The new site offers enhanced usability, expanded product information, hundreds of new product photos, and a unique "custom solutions" section that outlines the process Display Devices utilizes to design and build products from the ground-up. Another new feature is the custom wall plate and rack panel builder application which allows customers to create and price their own plate or panel. Visitors at NAB can browse the new site on a custom-built interactive kiosk at Display Devices' booth (SL4323).

About Display Devices

Founded in 1989, Display Devices has carved a niche in the Audio/Visual marketplace as the innovator of specialty mounting solutions. Their extensive line of standard products includes motorized lifts, mounts and enclosures for projectors and flat panel displays, camera pan-tilt systems, wall plates, rack panels, staging products and more. The in-house engineering team and on-site manufacturing capabilities place Display Devices in the unique position of providing custom solutions as well. If you can draw it, they can make it. Display Devices is well known as a valued OEM partner to some of the most respected manufacturers in the A/V industry.
