## **DISPLAY DEVICES SHOWCASES UNIQUE CUSTOM ENCLOSURE SOLUTIONS FOR THE DIGITAL SIGNAGE INDUSTRY**

Display Devices introduces the innovative "Pump Topper" and "Fountain Vision" flat panel enclosures offering dynamic digital signage for gas stations and convenience stores. These products are the newest in the growing line of unique digital signage solutions offered by Display Devices. These innovative enclosures have been deployed above soda fountains in indoor applications, and outfitted with integrated HVAC systems for use above gas pumps in outdoor environments. All of our enclosures are vandal/theft resistant, built with all aluminum construction, and come with bullet, impact, abrasion and chemical resistant ½" clear polycarbonate windows. Hinged doors allow for easy access to cable dressing and flat panel maintenance. Portrait and landscape orientations are available, along with optional touch screen functionality. Display Devices' enclosures will be showcased at the 2008 Digital Signage Expo (booth #855).

### **About Display Devices**

Founded in 1989, Display Devices has carved a niche in the Audio/Visual marketplace as the innovator of specialty mounting solutions. Its extensive line of standard products includes motorized lifts, mounts and enclosures for projectors and flat panel displays, camera pan-tilt systems, wall plates, rack panels, staging products and more. The in-house engineering team and on-site manufacturing capabilities place Display Devices in the unique position of providing custom solutions as well. If you can draw it, they can make it. Display Devices is well known as a valued OEM partner to some of the most respected manufacturers in the A/V industry.
