DISPLAY DEVICES PRESENTS THE ARTICULATING FLAT PANEL MOUNT

February 8, 2008, Arvada, CO

Display Devices presents the Articulating Flat Panel Mount — a highly-adjustable flat panel display mount for just about any application. It extends up to 36" and may be easily repositioned for multiple viewing angles. The mount is especially useful for corner installations or locations where space is at a premium. An open back leaves plenty of space for junction boxes and cable connection. The mount accommodates displays up to 61", and has a weight capacity of 140 lbs. List price for the mount (PWM-AA-36) is \$500.

About Display Devices

Founded in 1989, Display Devices has carved a niche in the Audio/Visual marketplace as the innovator of specialty mounting solutions. Its extensive line of standard products includes motorized lifts, mounts and enclosures for projectors and flat panel displays, camera pan-tilt systems, wall plates, rack panels, staging products and more. The in-house engineering team and on-site manufacturing capabilities place Display Devices in the unique position of providing custom solutions as well. If you can draw it, they can make it. Display Devices is well known as a valued OEM partner to some of the most respected manufacturers in the A/V industry.
