## DISPLAY DEVICES ANNOUNCES SOFFIT SOUND ENCLOSURE FOR HOME THEATRE APPLICATIONS

August 9, 2007, Arvada, CO

Display Devices, Inc. (DDI) introduces the SE Series Soffit Sound Enclosure for projectors. These enclosures effectively relocate fan noise away from the viewing area, allowing viewers to hear their movies, not whirring or buzzing fans. They feature programmable thermostats and integrated temperature sensors to make sure your projector receives all the cooling it needs. Multiple service access configurations are available, including hinged doors on the bottom or side of the enclosure, pull-out drawer glides, or a Display Devices projector lift installed within the enclosure for the ultimate in service simplicity. Our enclosures can be finished to match the décor of your home theatre room.

The list price for the SE Series Soffit Sound Enclosure starts at \$2,200.00. It will be on display at our booth at CEDIA 2007 – Booth #617.

### **About Display Devices**

Founded in 1989, Display Devices has carved a niche in the Audio/Visual marketplace as the innovator of specialty mounting solutions. Their extensive line of standard products includes motorized lifts, mounts and enclosures for projectors and flat panel displays, camera pan-tilt systems, wall plates, rack panels, staging products and more. The in-house engineering team and on-site manufacturing capabilities place Display Devices in the unique position of providing custom solutions as well. If you can draw it, they can make it. Display Devices is well known as a valued OEM partner to some of the most respected manufacturers in the A/V industry.
