DISPLAY DEVICES INTRODUCES A WIDE VARIETY OF PAN-TILT PRODUCTS TO THE WORSHIP MARKET

July 2007, Arvada, CO

Display Devices' line of Vextor Camera Pan-Tilt products are the perfect solution for religious and broadcast applications. Our controllers are very easy to use and feature highly-responsive control mechanisms. The Pan-Tilt heads won't disturb services thanks to whisper quiet operation.

Pan-Tilt Heads

The **VX-50** is our light-duty indoor model with a weight capacity of 6 lbs. It allows for 64 maximum presets, has a pan range of +/- 179°, tilt range of +/- 45° and offers variable speed of 0-25° per second. It operates in pedestal or ceiling configurations, and has a built-in 12 VDC camera power supply. Control is handled through RS-485 or RS-232. List price for the VX-50 is \$2,540.

The **VX-101** is similar to the VX-50, but adds a higher weight capacity and is quicker at 30° per second maximum speed. It is designed for light- to medium-duty indoor applications. The weight capacity increases to 12 lbs., and the maximum presets 64. The tilt range is also greater at +/- 90°. Like the VX-50, it operates in pedestal or ceiling configurations, and has a built-in 12 VDC camera power supply. List price for the VX-101 is \$4,255.

Pan-Tilt Controllers

The **VXC-55** Pan-Tilt Controller makes a perfect companion to our Pan-Tilt heads. It controls up to eight heads with the ability to store and recall up to 20 presets per head. If your application requires a more advanced solution, our **VXC-TSC** controller should suit almost any need. Ease of use is paramount with the glorious 15" LCD touch screen interface, and it controls up to 125 pan-tilt heads with up to 64 presets per head.

Both the VXC-55 and VXC-TSC provide full pan, tilt, zoom, focus, and iris control for your camera. They feature a dedicated joystick with twist capabilities to handle camera movement and focus control, respectively. A dedicated rocker controls zoom, and both units provide CCU functionality for select cameras and dedicated instant color correction. Both utilize RS-485 control protocols, and include 9 VDC power supplies..

List price on the VXC-55 is \$1,950; \$6,300 for the VXC-TSC.

DISPLAY DEVICES

About Display Devices

Founded in 1989, Display Devices has carved a niche in the Audio/Visual marketplace as the innovator of specialty mounting solutions. Their extensive line of standard products includes motorized lifts, mounts and enclosures for projectors and flat panel displays, camera pan-tilt systems, wall plates, rack panels, staging products and more. The in-house engineering team and on-site manufacturing capabilities place Display Devices in the unique position of providing custom solutions as well. If you can draw it, they can make it. Display Devices is well known as a valued OEM partner to some of the most respected manufacturers in the A/V industry.
