DISPLAY DEVICES TO DISTRIBUTE VOGEL'S PROFESSIONAL PRODUCTS IN THE UNITED STATES

April 8, Arvada, CO

Display Devices has teamed up with Vogel's Professional to distribute their products in the United States. One example is Vogel's Professional's new LCD/Plasma Glider™ Remote Control Wall Support. The Glider™ comes with a small and stylish remote control that turns your TV screen 45 degrees left or right for the optimal viewing angle.

The Glider™ is unique in many ways. It simultaneously glides along the wall while rotating in a fluid and efficient motion. It features soft start and stop for safety and style, as well as user-programmable presets for the most commonly used viewing angles. The Glider's "auto-move" function senses when the TV is switched off and will return to the wall automatically! It is suitable for 42-60" displays weighing up to 70 kg. The Glider™ is on display in Display Devices' booth at NAB (SL4323).

About Vogel's Professional

In 1973 a small family business, based in the Netherlands, introduced the world's first loudspeaker support. Now, 35 years later Vogel's is recognized worldwide as the industry's expert in the design, placement and manufacturing of mounts and furniture for audio and video equipment. Over the years the Vogel's has introduced many new and innovative products to the market.

About Display Devices

Founded in 1989, Display Devices has carved a niche in the Audio/Visual marketplace as the innovator of specialty mounting solutions. Their extensive line of standard products includes motorized lifts, mounts and enclosures for projectors and flat panel displays, camera pan-tilt systems, wall plates, rack panels, staging products and more. The in-house engineering team and on-site manufacturing capabilities place Display Devices in the unique position of providing custom solutions as well. If you can draw it, they can make it. Display Devices is well known as a valued OEM partner to some of the most respected manufacturers in the A/V industry.
